The applicant certifies that all information on this application is correct and the work will be completed in accordance with the “approved” construction documents and PA Act 45 (Uniform Construction Code) and any additional approved building code requirements adopted by the Municipality. The property owner and applicant assume the responsibility of locating all property lines, setback lines, easements, rights-of-way, flood areas, etc. Issuance of a permit and approval of construction documents shall not be construed as authority to violate, cancel, or set aside any provisions of the codes or ordinances of the Municipality or any other governing body. The applicant certifies he/she understands all the applicable codes, ordinances and regulations.

I certify that the code administrator or the code administrator’s authorized representative shall have the authority to enter areas covered by such permit at any reasonable hour to enforce the provisions of the code(s) applicable to such permit.

REQUIRED INSPECTIONS:

Construction work must be inspected in accordance with these instructions. This department will carry out such periodic inspections during the progress of work as are necessary to insure that work installed conforms to the approved plans and all applicable codes. The owner or other responsible person in charge of work must notify this department when work is ready for any required inspections specified below. If the work is not completed as scheduled, you must cancel the inspection prior to 9:00 a.m. on the day scheduled. Inspections will be performed within two (2) business days of the time for which they are scheduled. The work must not proceed in a manner that will preclude the inspection(s) until it has been made and approval given.

To schedule an inspection please call **610-250-6724** forty-eight (48) hours prior to the requested inspection date and you must supply the following information:

- permit number type of inspection required property address and location of work
- contact person contact phone number

Please note that PA UCC compliance approved plan(s), with any comments, **must be on site** at the time of the inspection. Failure to supply plan(s) will result in a \$50.00 fee being assessed with payment being made prior to scheduling any further inspections. This fee will be assessed for each occurrence.

Required inspections for all subcodes as indicated:

- _____ 1. The bottom of footing trenches before placement of footings, except that in the case of pile foundations, inspections shall be made in accordance with the requirements of the building subcode
- _____ 2. Foundations and all walls up to grade level prior to back filling
- _____ 3. All structural framing and connections prior to covering up with finish or infill materials; plumbing underground services, rough plumbing, electrical rough wiring inspection; panels and service installation, insulation installation
- _____ 4. Inspections as noted:
 - _____ a. Plumbing supply and drain lines and set fixtures **Note:** Plumbing tests are required for all water supply lines and drainage lines. Water supply lines require 60 lbs., drainage lines require 5 lbs.
 - _____ b. Underground plumbing prior to covering
 - _____ c. Electrical inspection (rough and final – approved sticker required on panel box)
 - _____ d. Mechanical (rough and final - spec sheets must be on site)
 - _____ e. Drywall (*prior to tape and spackle*) and/or insulation
 - _____ f. Window installation/replacement (please leave labels on windows to verify U-factor)
 - _____ g. Above ceiling
 - _____ h. Fire Marshall inspection
 - _____ i. Elevator certificate
 - _____ j. Labor and Industry Certificate of Occupancy
 - _____ k. Other: _____
- _____ 5. Final inspection upon completion of work
- _____ 6. Final Certificate of Occupancy. It is in violation and subject to fine to occupy before Certificate of Use and Occupancy has been issued by the construction official.
